DETAILED ACTION

Allowable Subject Matter

1. Claims 1-34 are allowed. The following is an examiner's statement of reasons for allowance: the prior of art fails to teach or obviously suggest the claimed invention.
2. Specifically, no teaching or obvious suggestion was found of the limitation " a graphics engine having a memory, wherein the graphics engine is coupled and configured so that hierarchical image data is received, and the set of cells is stored upon receipt of the hierarchical image data, so that beam control data is generated in response to the residual data...." in combination with the other recited limitations of claims 1,7,9, and 13.
3. Similarly, no teaching or obvious suggestion was found of the limitation "hierarchical image data includes residual data and at least one cell, each the cell determines a feature set of a pattern, the residual data includes at least two subroutine cell commands, and each of the subroutine cell commands identifies a cell of the at least one cell and a portion of a target at which the feature set determined by the cell is to be imaged...." in combination with the other recited limitations of claims 15,19-23,27, and 31.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
